

Programme 7: Creating Connections for All

Kindness Acts/Stories: <https://www.connectt kindness.wales/stories/>

Intergenerational Projects

Newport Intergenerational Skills Exchange Project in Newport, Pembrokeshire

The project was divided into 3 largely sequential parts, but with overlap in time

- **“Doors/Windows” “Drysauffenestri”** was an online project based on a new Facebook Group Llais Tydrath/Newport Voice created for the purpose. This was aimed at publicising the whole project, developing interest and harnessing community participation. It was always the intention to use contributed content to produce a mini-film, recording life during lockdown and how we helped one another through the pandemic
- **“Bridges” “Pontydd”** was to be for face-to-face intergenerational IT and digital skills and knowledge exchange.
- **“Rainbows” Bwararch”** was to be a series of themed activities and events across a range of subtopics, bringing together those who responded to an online survey which we carried out to identify those offering skills and those wishing to acquire them
