ICF Project Description (brief description using theory of change model):

- 1 - What is the problem you are trying to solve? *Create opportunities to test alternative service delivery models to support and empower carers. The Fund will also provide investment to deliver innovative and co-produced services to meet identified gaps in the provision.*
- 2 - What long term outcome/change are you hoping to achieve? *An increased choice of safe, sustainable and innovative community-led care and support initiatives that help carers maintain their caring responsibilities and support their health and wellbeing.*
- 3 - Who is your key audience? *Third Sector, community groups and other service providers.*
- 4 - How will you reach them? *Through direct promotion and support of key partners. We will also arrange a local workshop to share and develop ideas.*
- 5 - What resources are available to support? *Additional funding may be sourced through the Transformation Fund, Primary Care Clusters and any other investment opportunities which may become available.*
- 6 - What activities will bring about the change? *The establishment of a managed, supportive and equitable mechanism to access ICF funding.*

How does your project address your population needs assessment and area plan? *You can find the Population Assessment and Area Plan here: <http://www.wwcp-data.org.uk/>*

Disability-free life expectancy is rising more slowly than life expectancy, suggesting an increased need for care and support over time

The scheme will develop community-based, user-led, co-produced services that prevent isolation; promote community connectivity, well-being and resilience in our vital caring population.
