

Integrated Care Fund Project Proposal Form - Revenue

Llywodraeth Cymru
Welsh Government

Project Overview

Region: West Wales	ICF Project name: REG OP 2.0 Localities Non-Crisis Intermediate Care	
Project start date: April 1 st 2019	WG ref:	Project completion date: March 31 st 2021
Is this project linked to an ICF capital project? N		
Is this project linked to the Dementia Action Plan funding? Y		

What is the primary focus (1) and secondary (2) focus of the project are you proposing? * please mark 1 and 2 as appropriate

Children's/young carers projects	Adults/Carers projects	Regional Capacity building/Infrastructure
Information/Advice/Awareness raising	Information/Advice/Awareness raising	Regional Partnership Board Development
Access to Services/single point of access/transport	Access to Services/single point of access	Regional Workforce development/training
Assessment and diagnosis	Assessment and diagnosis	Regional Programme management and evaluation
Social Prescribing	Social Prescribing	Regional/Integrated planning and commissioning
Early Help and Prevention	Early Help and Prevention	Regional Support for Social Value Sector Engagement
Emotional Health and Wellbeing	Emotional Health and Wellbeing/Loneliness and isolation	Regional support for Citizen/carers engagement
Edge of Care support	Stay at home/return home	Other – (please specify below)
Family Group Conferencing approach	Integrated Community Teams	
Family re-unification	Step up/down from hospital	
Therapeutic intervention	Intermediate Care/ pathway	
New accommodation/residential solutions	New accommodation/Residential solutions	
Other (please Specify below)	Other (please Specify below)	

ICF Project Description (brief description using theory of change model):

1 - What is the problem you are trying to solve? Develop Home Based intermediate care to extend and enhance the current range of intermediate care services (including Reablement) to avoid hospital admission and support timely discharge back to the community, and to avoid admission to a care home.

2 - What long term outcome/change are you hoping to achieve? Better outcomes and levels of independence for older people requiring non-specialist rehabilitation for the following types of conditions: Cardiac; Pulmonary; Cancer; Stroke; Neuro; Lymphoedema; Musculoskeletal; Weight management.

3 - Who is your key audience? Frail Older People aged 75+

4 - How will you reach them? Receive referrals from hospital wards, GPs, Community Nursing, Domiciliary care providers, family and self-referrals.

5 – What resources are available to support? Funding from ICF if approved and Core Funding from both Health & Social Care.

6 - What activities will bring about the change? Re-configure existing and additional resources to develop a new multi-disciplinary Home Based intermediate care service, providing multi-disciplinary assessment, symptom management through therapies input and monitoring at home for 6 - 12 weeks, complementing existing Reablement service.

How does your project address your population needs assessment and area plan? PA: The WW Population Assessment demonstrates a significant rise in the over 65 demographic over the next 20 years. With this increase comes more people with chronic conditions, frailty & dementia with multi-pathology. We know that older people who are admitted to hospital de-condition immediately and their independence declines rapidly.

AP : OR2 – Maintain independence through provision of targeted support the prevents the need for people to be admitted to

What level of ‘prevention/Intervention’ (continuum) best describes your project? *please tick as appropriate (all apply but this is the primary focus)

Self Help, Information and Advice	Early Help and support	Intensive Support	Specialist Intervention
		x	

Project Costs (not including ICF Dementia funded posts)

YEAR ONE	Quarter 1	Quarter 2	Quarter 3	Quarter 4	Total Cost
Direct delivery costs -					
Staffing					
Overheads (heat, light, rent etc)					
Resources/activity costs					
Equipment/IT					
YEAR TWO	Quarter 1	Quarter 2	Quarter 3	Quarter 4	Total Cost
Direct delivery costs -					
Staffing	314,923	314,923	314,923	314,923	,125,9692
Overheads (heat, light, rent etc)					
Resources/activity costs

Project Delivery

Delivery partners

Local Authority	x
Health Board	x
Third Sector/Social Value sector	
Private/Independent sector	
Housing Association/RSL	
Other (pls specify below)	

Project budget holder

Local Authority	x
Health Board	x
Third Sector/Social Value sector	
Private/Independent sector	
Housing Association/RSL	
Other (pls specify below)	

Project geographical footprint

Regional	x
Sub-regional	
Multiple regions	
Local Authority	
Local community	

Project Beneficiaries (pls check boxes as appropriate):

Primary beneficiaries

Older people	x
People with learning disabilities	
Children with complex needs	
Children at risk of becoming looked after	
Care experienced children including adopted children	
Carers	
Young Carers	
People with dementia	

Secondary beneficiaries

Older people	
People with learning disabilities	
Children with complex needs	
Children at risk of becoming looked after	
Care experienced children including adopted children	
Carers	
Young Carers	
People with dementia	x

Other beneficiaries

Older people	
People with learning disabilities	x
Children with complex needs	
Children at risk of becoming looked after	
Care experienced children including adopted children	
Carers	x
Young Carers	
People with dementia	

Project Design Principles (pls check boxes as appropriate):

Which of the 'A Healthier Wales' Quadruple aim/s does this project primarily address?

Improved health and wellbeing	
Better quality and more accessible health and social care service	
Higher value health and social care	x
A motivated and sustainable health and social care workforce	

Which of the 'ten national design principles' from A Healthier Wales will the project address?

Prevention & Early Intervention	
Safety	
Independence	x
Voice	
Personalised	x
Seamless	x
Higher Value	x
Evidence Driven	x
Scalable	x
Transformative	x

With voice and co-production as key principles, tell us who you have engaged with in the design of your projects

Service users (adults)	x
Service users (Children/young people)	
Carers	
Young carers	
Workforce	x
Social Value/third sector	
Community members	x
Other:	

Project outcomes and impacts

What Population level indicators/measures is your project seeking to address? * please select from national outcome/performance management framework

Citizens understand what care, support and opportunities are available and use these to help them achieve their well-being

Tell us how you will measure/understand the impacts of your project?

<p>How Much? (outputs)</p> <ul style="list-style-type: none"> % / Number Individuals supported to achieve maximum independence for longer (in their own homes) 	<p>How Well? (quality)</p> <p>% / number of patients/clients reporting on service as good / excellent</p>
<p>Difference made? (impact)</p> <p>Maximising people's time spent in their home of choice</p> <ul style="list-style-type: none"> To devise an individual plan for short term support to meet agreed outcomes (what is important to them). To make arrangements to deliver the individual plan. To monitor the service user's progress against the agreed outcomes and revise the plan if required. To discharge the service user from the home-based service and record their outcomes. Support people age 75+ to maintain their independence at home and reduce their long term care needs on discharge from the service. Improve the patient experience, especially those with a cognitive impairment whose well-being can be negatively impacted by a hospital stay. 	

Tell us how you intend to evaluate the following aspects of your project (please refer to ICF guidance)

Impact Evaluation <i>(How will you measure/understand the outcomes that have been achieved by your project?)</i>	<ul style="list-style-type: none"> Better management of patients' symptoms resulting in reduction in caseload for specialist rehab and step-down of patients to community based services to maintain their level of function
Process Evaluation <i>(How will you evaluate the system & process changes delivered by your project e.g. integration, co-production, social value?)</i>	<ul style="list-style-type: none"> Integrated, multi-disciplinary working for a wide range of conditions on an individual and group basis
Economic Evaluation <i>(How will you evaluate the cost benefits/cost avoidance delivered by your project?)</i>	<ul style="list-style-type: none"> Reduction in hospital admissions for chronic conditions
Qualitative Evaluation <i>(How will you capture the experiences of service users/staff/communities?)</i>	Developing: <ul style="list-style-type: none"> Patient and carer experience / satisfaction Care needs of service users on discharge Improved Therapy Outcome Measures (TOM) of service users Case studies

Exit Strategy

Tell us about your exit strategy for the project (post 2021):

The implementation of this model is in line with national guidance on intermediate care services and the benefits to the target population should be demonstrated to be consistent with the HB's TCS strategy of "growing the green" in the community.
